

Welcome to the July Cal Hort Meeting!

Plant Forum

Thank you

Kiamara Ludwig

Sal Levinson

Saxon Holt

Judy Wong

Daisy Mah

Janet Hoffman

Ben Spencer-Cooke

Heather Gorawski

Bobbi Feyeraben

Mark Delepine

Ellen Frank

And everyone who added to
the conversation tonight!

Thank you for sharing your gardens, your special plants, your gardening experiences, your questions and your advice at this month's Plant Forum.

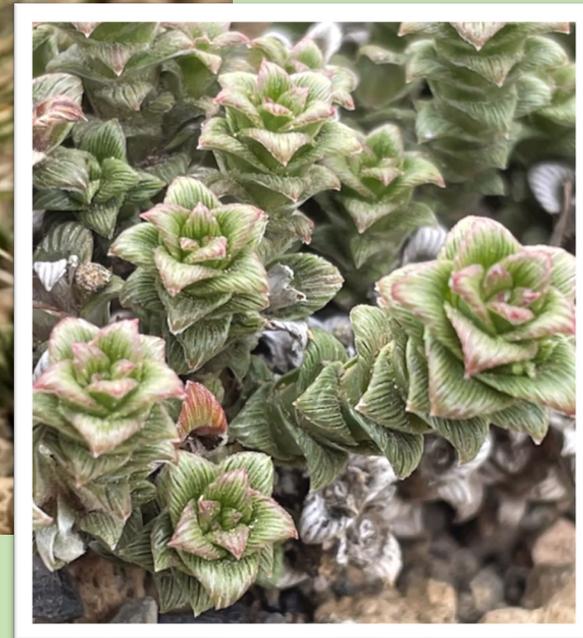

We love seeing what is happening in everyone's gardens and learning from each other!

Merritt and Berkeley Tilden Botanic Gardens

Romneya coulteri

pollinating success
with Romneya

Sal Levinson
gardens in Berkeley

Thank you
for the Seeds!

Sal Levinson

“I just found my *Salvia* ‘Winnifred Gilman’ is going bicolor.”

Saxon Holt
gardens in Novato

“This is the real tall *Madia* I mentioned last month, now flowering six feet tall.”

Saxon Holt

Montbretia 'Burning Embers'

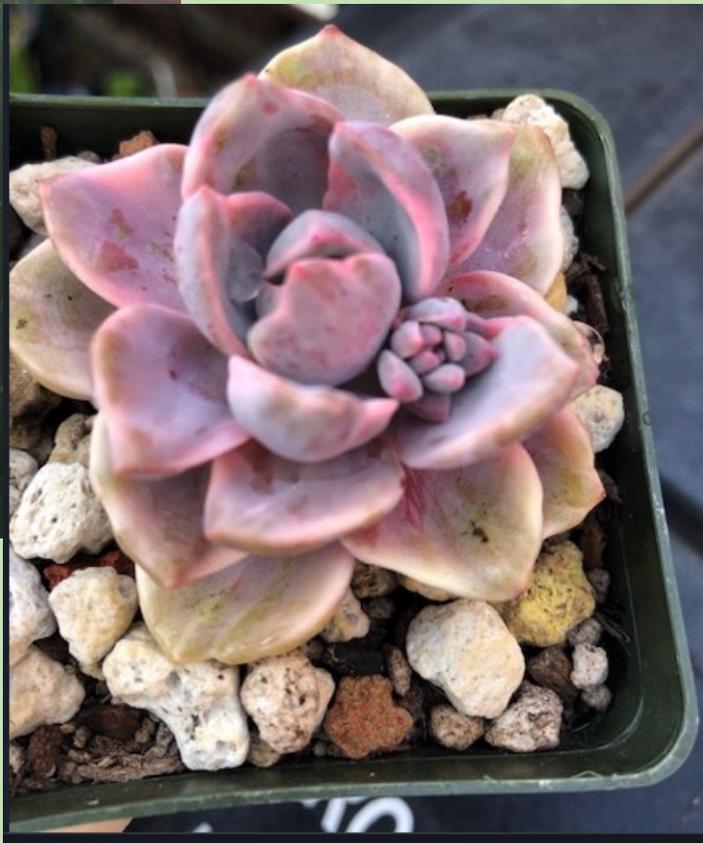

Buddleia lindleyana.

Variegated Graptoveria
'Mrs. Richards' –
An Albert Baynes hybrid of
and *Graptopetalum*
paraguayense X *Echeveria* sp.

Calylophus
'Southern Belle'

Judy Wong
gardens in Menlo Park

Mostly *Sarracenia purpurea*, displaying pitchers and remnant flowers. Perhaps the cold winter contributed to more vigor. They are native to Eastern US. Fragrance attract insect prey, live in swampy, boggy low nutrient conditions.

**Daisy Mah
Gardens in
Sacramento**

Spigelia marilandica, an *Lilium henryi*, an Asiatic type lily has down facing-flowers with no fragrance. Arching +6 ' stem indicates it is too shady. It was discovered in central China by Irish plant explorer Augustine Henry.

Lilium lankongense swollen pods show promise of successful pollination. Thin pods were not pollinated.

Origanum x hybridum ' Kirigami'
- seed grown, maybe Park
Seeds, sun, light shade

Heliopsis ' Lorraine's
Sunshine'. , in light shade,
regular water. Planted a year
ago, seems to take the
extreme temperatures.
